### *Additional Shipping Information:*

- Cardboard boxes need to be no more than 130 inches total. If the box exceeds 130 inches total, UPS (and all other shippers) charge a \$50.00 over the limit fee plus the actual shipping and insurance.

- To figure out how many total inches the box is use the following formula:

Length + Width (x2) + Height (x2)

Average Cardboard box size: 48 + 28(x2) + 8(x2)

48 + 56 + 16 = 120 inches

- Insurance rates have also changed, for the first \$100 of insurance, the shipping company pays for it, \$200-\$300 of insurance is \$1.20 flat fee, and \$400 and more is \$.40 per \$100. For example, \$1,000.00 of insurance on a bike:
  - 1<sup>st</sup> \$100 – Free
  - \$200 - \$300 = \$1.20
  - \$400 and up = \$2.80 (7 x \$.40 = \$2.80)
  - Total for \$1,000.00 of insurance = \$4.00
- Hard Case Boxes – Another \$5.00 additional handling fees per UPS because they do not fit on the conveyor belt that was designed for the cardboard.
